

EnergyConnect

Out of Hours Construction Notification

November 2024

Elecnor Australia (formerly SecureEnergy) has been contracted by Transgrid to deliver part of EnergyConnect with the construction of 700km of new power lines from the SA border to the regional energy hub of Wagga Wagga. The project will connect the electrical grids of New South Wales, South Australia, and Victoria, improving reliability of our nation’s energy supply.

Construction Activities

Elecnor Australia are destringing the old Buronga-Red Cliffs transmission line over the Murray River at Trentham Cliffs, NSW, and undertaking associated works as part of decommissioning of the former line.

The approved hours of work are:

- 7am to 6pm Monday to Friday
- 8am to 1pm Saturdays
- At no time on Sundays and NSW Public Holidays.

Work outside approved construction hours

Works outside approved construction hours are planned for Wednesday 20 November to Wednesday 27 November 2024 to ensure works are carried out safely and to minimise disruption to the community.

Works will take place, weather permitting **between 7am and 6pm Monday to Sunday.**

The scope of construction work is outlined in the table below:

Location and Activity	Description	Work dates
Destringing of conductors across the Murray River	Destringing activities include: <ul style="list-style-type: none"> • Dismantling brake winch sites • Removal of draw wire • Removal of conductors and spacers 	November 2024
Destringing of conductors within the easement between Buronga, NSW and Red Cliffs, VIC.	Destringing activities include: <ul style="list-style-type: none"> • Dismantling of brake winch sites • Removal of draw wire • Removal of conductors and spacers 	November 2024
Affected roads and waterways in construction areas between Buronga, NSW and Red Cliffs, VIC.	State roads: <ul style="list-style-type: none"> • Sturt Highway Local roads: <ul style="list-style-type: none"> • Arumpo Road Waterways: <ul style="list-style-type: none"> • Murray River 	November 2024

How could this impact you?

Boating traffic

During the destringing works, water vessel movements will be intermittently halted for periods of up to 20 minutes, to allow safe access for the project teams.

Waterway traffic controllers will set up traffic control points approximately 100m from either side of the works locations to direct vessels through the worksite when it is deemed safe to do so.

There will be no impact to waterway traffic before 7am and after 6pm. Vessels are encouraged to navigate the area with care.

How we're managing impacts

Site light, noise and vibration

Machinery and equipment will generate some light, noise and vibration. We will make every effort to minimise impacts by:

- Minimising the number of machines/vehicles to be used.
- Ensuring all machinery and vehicles are maintained and serviced.
- Turning off machinery and vehicles when not in use.
- Directing any temporary lighting down and away from homes.
- Fitting equipment with devices to minimise noise.
- Monitoring noise so we can manage any potential impacts and change our work as required.

Boat ramp notifications

Maritime notices will be displayed at the following boat ramps:

- Karadoc boat ramp – Edey Road, Red Cliffs
- Red Cliffs boat ramp – Woomera Avenue, Red Cliffs
- Bottle bend boat ramp – Sturt Hwy, Monak
- Bruces bend (Nichols Point) boat ramp – Billabong Road, Nichols Point
- Bruces bend marina – 133 Billabong Road, Nichols Point
- James King Park (Gol Gol) boat ramp – John Street, Gol Gol.

Types of equipment

The type of equipment you can expect to see include steel cables, draw wire, conductor wire, insulators, elevated work platforms, rough terrain cranes, telehandlers, trucks and light vehicles.

There may be intermittent noise from the stringing machines or winches.

All work will be carried out in line with the project's Conditions of Approval and Construction Environmental Plan.
